The Internet EAP and SAP Directory
WWW.EAP-SAP.COM

The 'Premier' EAP & SAP Internet Directory

Do you want more contacts from companies seeking your services, and/or more visits to your company's website?

Every day, *many* companies use this directory to locate EAP Providers, Consultants, and Substance Abuse Professionals. This is our 12th year of maintaining this one-of-a-kind EAP and SAP Directory on the Internet. Currently, 237 health and employer related websites link to our directory.

These Internet directories, with more than 750 listings, received over 375,000 visits last year from those seeking the services that your company offers. Also, *many* providers and consultants use the directory as a source for contacts and referrals. The directory is also *very* easy to find via the popular search websites such as Google and Yahoo.

The fee to have you or your company listed in either Internet Directory is **only \$45 per year**. If your company provides both EAP and SAP services, the \$45 fee will gain you a listing in both Internet Directories. Additionally, if your company has a website, a user of the EAP and/or SAP Directory will be able to click on your name in the directory and go directly to your website.

To have your company listed on the EAP and/or SAP Internet Directory, simply fill out this form and mail it, along with your check, to DataLink (address at top).
